

GENERALIZED ANXIETY DISORDER SELF-TEST

HOW CAN I TELL IF I HAVE GAD?

How much anxiety is too much? If you suspect that you might suffer from **generalized anxiety disorder (GAD)**, complete this self-test. Click the "yes" or "no" box next to each question, then print out the test and show the results to your health care professional.

Are you troubled by:

YES	NO	
		Excessive worry, occurring more days than not, for a least six months?
		Unreasonable worry about events or activities such as work or school and/or health?
		The inability to control the worry?

Are you bothered by a least three of the following?

YES	NO	
		Restlessness, feeling keyed-up or on edge?
		Being easily tired?
		Problems concentrating?
		Irritability?
		Muscle tension?
		Trouble falling asleep or staying asleep, or restless and unsatisfying sleep?
		Does your anxiety interfere with your daily life?

Having more than one illness at the same time can make it difficult to diagnose and treat the different conditions. Illnesses that sometimes complicate anxiety disorders include depression and substance abuse. With this in mind, please take a minute to answer the following questions

YES	NO	
		Have you experienced changes in sleeping or eating habits?

More days than not, do you feel:

YES	NO	
		Sad or depressed?
		Disinterested in life?
		Worthless or guilty?

During the last year, has the use of alcohol or drugs:

YES	NO	
		Resulted in your failure to fulfill responsibilities with work, school, or family?
		Placed you in a dangerous situation, such as driving a car under the influence?
		Gotten you arrested?
		Continued despite causing problems for you and/or your loved ones
